B – Marking:

- ◆ Control of Paces is judged anonymously. A minimum of 5 judges are posted along the corridor, plus 2 others, one at the start and one at the finish.
- ◆ Judging must be made the by each judge for the whole corridor. A fault of the same type, break or corridor, has to be noted by 2 judges in order to be counted.
- ◆ The quality of the canter is not taken into account. The gait is a 3-beat pace, and any diagonalisation will be penalised.

In both phase tests, competitor's score will be 0 if they:

- ◆ do not remain at the required gait
- ◆ come out of the obstacle corridor, even with a single hoof boot
- ◆ demonstrate inharmonious gallop.

The obstacle corridor in this case is determined by the inside edge of the markings.

The test must be timed both electronically and manually.
